Front-End Developer

Alaaahmed1343@gmail.com | 01015319472 | Sohag, Egypt | <https://www.linkedin.com/in/alaah-frontend>

## ABOUT ME

Junior Front-End Developer skilled in React.js, JavaScript, Bootstrap, and HTML5/CSS3. Demonstrates solid problem-solving skills rooted in a Computer Science background and hands-on web development training. Passionate about creating seamless, responsive user interfaces and integrating dynamic web applications with clean, maintainable code.

## EDUCATION

### Bachelor's Degree in Computer Science and Artificial Intelligence

10/2023 - 06/2027

Sohag University

## EXPERIENCE

### Frontend Development (React.js)

07/2026 - 08/2026

Information Technology Institute (ITI)

- Built responsive single-page applications with React.js, JavaScript (ES6+), Bootstrap, and Context API.
- Designed clean, responsive UI following UI/UX best practices.
- Explored Generative AI integration for custom agents and prompt engineering.

### Web Designer

01/2026 - 03/2026

National Telecommunication Institute (NTI) - Digital Egypt Youth Program

- Completed a 120-hour web design and front-end development program, scoring 97%.
- Built responsive, cross-browser web pages and gained freelancing/gig management coaching.

### Software Development

07/2024 - 08/2024

Information Technology Institute (ITI)

- Mastered C and OOP fundamentals with C++.
- Applied flowcharts, pseudocode, and data structures to build and debug console applications.

## PROJECTS
